David Pelletier, President Naumkeag Auto Salvage Co., Inc. 2 Lilly Street Salem, MA 01970 Certified Mail # 7011 1150 0000 0300 4544

Re:

60-Day Notice of Violations and Intent to File Suit Regarding Noncompliance with Federal Clean Water Act's Industrial Stormwater Discharge Requirements: 2 Lilly Street, Salem, MA

Dear Mr. Pelletier:

This office represents Clean Water Action, a national non-profit citizens' organization working for prevention of pollution in the nation's waters, protection of natural resources, creation of environmentally-safe jobs and businesses, and empowerment of people to make democracy work. Clean Water Action has over one million members nationally, more than 50,000 of whom reside in Massachusetts.

Naumkeag Auto Salvage Co., Inc. ("Naumkeag") submitted a Notice of Intent ("NOI") to be covered by EPA's reissued Multi-Sector General General Permit for Stormwater Discharges Associated with Industrial Activity ("General Permit") on February 12, 2009. The company has violated and continues to violate the permit's terms and conditions.

617-742-5800 Fax: 617-742-5858 E-Mail: sswg@sswg.com

¹ The General Permit was first issued in 1995 and was reissued in 2000 and 2008. 60 Fed. Reg. 50804 (Sept. 29, 1995); 65 Fed. Reg. 64746 (Oct. 30, 2000); 73 Fed. Reg. 56572 (Sept. 29, 2008). The General Permit expired on September 29, 2013, but has been administratively continued by its own terms. See General Permit, pg. 9.

90 Canal Street Boston, MA 02114-2022

We write to give notice that Clean Water Action intends to file a civil action in the United States District Court for the District of Massachusetts under section 505 of the Federal Clean Water Act (the "Act") against Naumkeag. The subject of the action will be Naumkeag's unlawful discharge of stormwater from its automobile salvage yards facility at 2 Lilly Street, Salem (the "Facility"). Stormwater runoff from the Facility is discharged into Assawompset Pond, which is in the North Coastal watershed.

BACKGROUND

Activities that take place at industrial facilities, such as material handling and storage, are often exposed to the weather. As runoff from rain or snowmelt comes into contact with these materials, it picks up pollutants and transports them to nearby rivers, lakes, or coastal waters and tributaries thereto, including but not limited to storm sewer systems, wetlands, and other surface waters. Stormwater pollution is a significant source of water quality problems for the nation's waters.

The following are *some* of the activities, pollutant sources and pollutants that may be present with Naumkeag's automobile salvage yard processes:

Activity	Pollutant Source	Pollutant
Vehicle Dismantling	Oil, anti-freeze, batteries, gasoline, diesel fuel, hydraulic fluids, electrical switches	Oil and grease, ethylene glycol, heavy metals, mercury
Used Parts Storage	Batteries, chrome bumpers, wheel balance weights, tires, rims, filters, radiators, catalytic converters, engine blocks, hub caps, doors, drivelines, galvanized metals, mufflers	Sulfuric acid, galvanized metals, oil and grease, heavy metals, petroleum hydrocarbons, total suspended solids (TSS)

Outdoor Vehicle and Equipment Storage	Leaking engines, chipping/corroding bumpers, chipping paint, galvanized metal	Oil and grease, arsenic, organics, heavy metals, total suspended solids (TSS)
Vehicle and Equipment Maintenance	Parts cleaning	Chlorinated solvents, oil and grease, heavy metals, acid/alkaline wastes
	Waste disposal of greasy rags, oil filters, air filters, batteries, hydraulic fluids, transmission fluids, radiator fluids, degreasers	Oil, heavy metals, chlorinated solvents, acid/alkaline wastes oil, heavy metals, chlorinated solvents, acid/alkaline wastes, ethylene glycol
	Spills of oil, degreasers, hydraulic fluids, transmission fluid, and radiator fluids	Oil, arsenic, heavy metals, organics, chlorinated solvents, ethylene glycol
	Fluids replacement, including oil, hydraulic fluids, transmission fluid, and radiator fluids	Oil, arsenic, heavy metals, organics, chlorinated solvents, ethylene glycol
Vehicle, Equipment, and Parts Washing Areas	Washing and steam cleaning waters	Oil and grease, detergents, heavy metals, chlorinated solvents, phosphorus, salts, suspended solids
Liquid Storage in Above Ground Storage Tanks	External corrosion and structural failure, Installation problems, Spills and overfills due to operator error	Fuel, oil and grease, heavy metals, materials being stored
Illicit Connection to Storm Sewer	Sanitary water	Bacteria, biochemical oxygen demand (BOD), suspended solids
	Floor drains	Oil and grease, heavy metals, chlorinated solvents, fuel, ethylene glycol
	Vehicle washwaters	Oil and grease, detergents, metals, chlorinated solvents, phosphorus, suspended solids
	Radiator flushing wastewater	Ethylene glycol
	Leaking underground storage tanks	Materials stored or previously stored

Clean Water Action will ask the Court to ensure Naumkeag's future compliance with the Act, assess civil penalties in an appropriate amount,² award plaintiff its litigation costs, including attorney and expert fees, and award any other relief the Court deems appropriate. Clean Water Action's complaint will be filed a minimum of 60 days after the postmark date of this letter. This is a formal 60-day notice of intent to sue that is being served pursuant to 40 C.F.R., Part 135.

This notice is being provided by:

Cindy Luppi, New England Regional Co-Director Clean Water Action 262 Washington Street, Suite 301 Boston, MA 02108 (617) 338-8131 (617) 335-6449 (fax)

Counsel for Clean Water Action in this case is: Nora J. Chorover Stern, Shapiro, Weissberg & Garin, LLP 90 Canal Street, Suite 500 Boston, MA 02114 (617) 742-5800 (617) 742-5858 (fax)

² The Act authorizes the Court to assess a penalty of up to \$37,500 per day of violation. *See* 73 Fed. Reg. 75340 (Dec. 11, 2008).

NAUMKEAG'S VIOLATIONS AND DATES OF VIOLATIONS

Naumkeag's violations are described below and are also set forth on a Table attached as Exhibit A hereto.³ The Complaint, when filed, will set forth additional days of violations that occur between the date of this letter and the date on which the Complaint is filed.

A. VIOLATIONS OF THE TERMS OF THE GENERAL PERMIT.

The company has violated the permit's terms, as follows:

1. Failure to Comply with the Permit's Monitoring Requirements

Naumkeag is required to monitor its discharges in accordance with the specific provisions of section 6 of the General Permit (pgs. 33-40) and Appendix B, section B. This includes monitoring for benchmark parameters applicable to automobile salvage years. General Permit, section 8.M.5. Naumkeag was required to monitor for the presence of pollutants in its stormwater discharges for each quarter commencing with the April 1, 2009 to July 30, 2009 quarter. Quarterly monitoring is required to continue until four consecutive quarterly samples show that the company's discharges are below EPA benchmark levels.⁴ Naumkeag failed to comply with these benchmark parameter monitoring requirements for most of the quarters that it was covered by the permit, as set forth on Exhibit A. To the extent additional monitoring violations become known to Clean Water Action before the action is filed, the complaint will seek remedy for such additional monitoring violations. To the extent additional monitoring violations are learned through discovery in the action, the complaint will be amended to seek remedy for such additional monitoring violations.⁵

³ Clean Water Action believes that violations have occurred on the dates identified in this letter and on Exhibit A, and not just on rain days. However, to the extent it is determined that rain days are relevant in determining the dates of violations, such rain dates through January 6, 2014 are set forth on Exhibit B hereto. The complaint, when filed, will set forth additional rain dates since that date.

⁴ Specifically, Naumkeag was required to monitor for Total Suspended Solids, Total Aluminum, Total Iron and Total Lead. See General Permit, section 8.M.5.

⁵ Additional discovered monitoring violations may include, without limitation: failure to ensure representative sampling (General Permit, App. B, section B(1)(A), pg. B-5); failure to monitor from all facility outfalls (id., section 6.1.1, pg. 33); failure to monitor during a measurable storm event following the preceding storm by at least 3 days (id., section 6.1.3, pg. 33); failure to conduct monitoring in accordance with test procedures approved under 40 CFR Part 136 (id., App. B, section B(10), pg. B-6); or failure to sample within the first 30 minutes of a measurable storm event (id., section 6.1.4, pg. 34).

2. Failure to Comply with the Permit's Reporting Requirements.

Naumkeag is required to report certain information to EPA and the Massachusetts Department of Environmental Protection ("Mass DEP") regarding its stormwater discharges in accordance with the provisions of section 7 of the Permit. Among other things, Naumkeag must submit quarterly benchmark monitoring data to EPA. See General Permit, section 7.1.⁶ Benchmark pollutant monitoring reports were to have been filed with EPA 30 days following receipt of monitoring results. Naumkeag failed to comply with these reporting requirements during most of the quarters that it has been subject to the permit, as set forth on Exhibit A.

Naumkeag is also required to prepare and submit to EPA annual reports that include findings from its annual comprehensive site inspections and documentation of corrective actions. See General Permit, section 7.2. Naumkeag failed to submit annual report to EPA during most of the years it has been subject to the permit, as set forth on Exhibit A.

To the extent additional reporting violations become known to Clean Water Action before the action is filed, the complaint will seek remedy for such additional reporting violations. To the extent additional reporting violations are learned through discovery in the action, the complaint will be amended to seek remedy for such additional reporting violations.⁷

⁶ If the data contains any exceedences of benchmarks, it must also be submitted to Mass DEP. See General Permit, Section 9.1.2.4.

⁷ Additional discovered reporting violations may include, without limitation, failure to submit all reporting data to EPA no later than 30 days after receipt of laboratory results (General Permit, section 7.1).

3. Failure to Ensure That Control Measures Minimize Pollutant Discharges

The General Permit requires Naumkeag to ensure that its control measures minimize its stormwater pollutant discharges. General Permit, section 2.0 (pg. 12). The company must modify its control measures as expeditiously as practicable whenever it finds that they "are not achieving their intended effect of minimizing pollutant discharges." Id., section 2.1. Because the company has not been regularly monitoring its pollutant discharges as required by the permit, it cannot know how its existing control measures are performing and therefore cannot have been modifying them as necessary to minimize stormwater pollutant discharges.

This Notice Letter alleges that Naumkeag failed to implement adequate control measures based on information presently available to Clean Water Action. If additional information regarding this violation becomes known to Clean Water Action in the future, the complaint may set forth some or all of such additional information.

CONCLUSION

Clean Water Action believes this Notice of Violations and Intent to File Suit sufficiently states the basis for a civil action. During the 60-day notice period, we would be willing to discuss effective remedies for the violations noted in this letter that may avoid the necessity of litigation. If you wish to pursue such discussions, please have your attorney contact us within the next 20 days so that negotiations may be completed before the end of the 60-day notice period. We do not intend to delay the filing of a complaint in federal court if discussions are continuing when that period ends.

Sincerely,
Noca Chocoon / Nt

Nora J. Chorover Attorney for

CLEAN WATER ACTION

⁸ "Minimize" means "reduce and/or eliminate to the extent achievable using control measures (including best management practices) that are technologically available and economically practicable and achievable in light of best industry practice." Id.
